"Whether an opening or a closing speaker at your events, Brock will use his wonderful sense of humour and storytelling ability to help people think about how they can make a more positive difference in their own lives and the lives of others, regardless of the organizational context... [His messages] clearly and readily support current organizational initiatives such as managing change, leadership/team development, building trust, developing a respectful workplace, etc. Brock is a proven performer on the platform and more importantly, he lives his talk and provides an inspiring model for others to follow.
